# About H O U P

HOU P TM is a world-renowned vaccine cooler box brand and it is owned by HOU P Solutions. The branded box can only be manufactured by HOU P TM as a patented product with its unique insulation material HOU P Vaccine thermal cooler solid boxes are manufactured in South Africa with 100% local content.

# About us

HOUNG TM – currently manufactures a variety of Vaccine storage capacity from 2.5 litre to 23.5 litre thermal Insulation Rigid Vaccine Cooler Box.

All the vaccine cooler and carrier boxes are manufactured according to WHO specification- (WHO/PQS/E004/CB01.2).

HOUNG TM – also manufacture its own 0.3, 0.4 and 0.6 litre ice pack according to WHO specification PQS/E005/IP01 and can be filled with either Water or any Phase Changing Material (PCM) of customer's choice.

The HOUNG TM has been designed and manufactured using a unique process called Roto moulding for the hush demanding African environment. HOUNG TM - Thermal Insulation Rigid Cooler Box comes with a 3-year warranty against manufacturing defects.

# What We Do ?

## OUR MISSION

To maintain and improve the quality of life for the people of South Africa by providing the best possible cryogenic medical solution and service to both the private and the public.

This is premised on the belief that HOUP TM is light.

## OUR DISTRIBUTION

HOUP TM has been selected to be the distributor of LogTag, the manufacturer of data logging devices like Temperature loggers, Freeze logs, and Humidity loggers.

This will ensure a faster turnaround time and be competitiveness. This s is a value-added service that HOUP TM will provide in conjunction with the Insulated boxes.

HOW WE WORK

# Founders Overview

Houp Solution is founded by Sipiwe Moteane who embodies knowledge in a number of sectors of the economy. Started as a sales representative in the hair and beauty industry, moved to the packaging industry, and landed in the retail industry having to have worked with some of the biggest retailers in South Africa, and finally landed in the Banking sector. With more than 20 years of experience in Packaging, Technology and Retail Sipiwe Moteane is a Project Manager/ Business Analyst specializing in strategic concepts and their transfer into practice,

Sipiwe started getting involved with sales of medical devices and pharmaceuticals three years ago. He established his root and demonstrated passion for building a formidable medical system solution company.

The pandemic hit and borders were closed and there was a need to start looking internally and being self-sufficient as a country. The need for rigid thermally insulated vaccine cooler boxes arose since all medical rigid cooler boxes were imported. Sipiwe Moteane being a young black entrepreneur grabbed the opportunity and invested his own fortune and the HOUP TM brand was born, He marketed the company for a while to test the brand acceptance until registration and patent application to protect the uniqueness of the product.
